

Models 45-10P and 45HEPA-Wet/Dry

2HP 10 Gallon Wet/Dry and HEPA Wet/Dry Vacuums

Pullman-Holt's Model 45 wet/dry vacuums provide an unbeatable combination of features, performance and low price. Inside, a 2HP motor generates enough suction to pick up almost any kind of material, wet or dry. A reliable float shut off and high airflow filter system provides the efficiency of vacuums costing twice as much. Outside, you will find a superbly styled, polyethylene body which will shrug off years of hard use. **Includes complete wet/dry tool kit.**

Powerful Vacuum:

A 2 horsepower, 2 stage by-pass, 11.1 amp motor delivers 105" waterlift and 110 CFM. Plenty of power for fast pick-up of wet and dry hazardous materials at an affordable price.

True 99.97% Type A Large Capacity HEPA Filter:

Individually tested and certified to have a minimum efficiency of 99.97% at .3 microns in accordance with IEST-RP-CC001 test requirements.

Features:

- Heavy-duty lift handle with cord hook**
Safe and easy lifting and transport.
- 2HP commercial grade, two-stage motor**
Fast and superior pick-up, both wet and dry. Includes one year warranty – parts and labor.
- Injection molded motorhead with low noise design**
Allows for operation in sound sensitive areas.
- High efficiency, drop-in cloth filter bag**
For maximum air flow without interruption.
- Positive locking, full swivel hose connection system with button latch.**
For easy handling and operation. Hose does not bind.
- 50-foot power cord**
Allows for use without extension cord.
- Blow molded high-density polyethylene canister**
Low center of gravity design prevents tipping, resists impacts and provides superior air seal.
- Four swivel casters**
Pulls easily with hose even with a full tank of liquid.
- High efficiency 2-ply enclosed, disposable paper filter bag**
Acts as the primary filter to trap and hold dry material for easy handling and disposal. (B700408)

Pullman-Holt HEPA Filter System (Applies to 45HEPA-Wet/Dry Only)

HEPA Filter – Made from a single piece of high-grade HEPA media to eliminate the possibility of leaks. (B702340)

"Never Clog" Filter Bag – Sheds dirt and debris like a duck sheds water. Shakes clean to maintain maximum airflow. (B000517)

Spacer & Wet Shut-off – Holds and protects HEPA filter. Equipped with a float cage to prevent over-filling. (B260856)

Mesh Secondary Filter – Mounted over the filter cage to prevent debris from interfering with the operation of the liquid shut-off. (B703966)

PULLMAN-HOLT Part No. B702340

P512306 Mfrd by Donaldson Company, Inc.

TEST-RP-CC001, Type A, Grade 6, 105 cfm

This Hepa filter has been tested and is certified to have a minimum efficiency of 99.97% on .3 micron.
