

526 HEPA Dust Extractor

Creating Clean Air for Construction, Abatement and Restoration

Unlike low cost homeowner vacuums, Ermator HEPA Dust Extractors are equipped with tested and certified HEPA filters that trap the most dangerous-to-breath dust particles and prevents them from being released in the air. A HEPA Dust Extractor not only exhausts perfectly clean air, it is far more efficient for the fast recovery of bulk dry dust, debris and other building materials found on every Construction, Abatement and Restoration jobsite.

- Jet Pulse: efficient cleaning without opening vacuum
- Steel Clamps: corrosion resistant, secures vac during transport and storage
- 2" Hose Inlet: offset for maximum cyclonic separation of dust, maximizes airflow (CFM)
- Safety Cap: prevents material from escaping through inlet during transportation and storage
- Longopac®: 72 ft long plastic tube can be separated into approximately 25 individual sealed bags for fast, safe handling and disposal of dust.
- Welded frame/platform with 3" swivel casters: sturdy support & mobility even with full bags

- Steel Handle: easy mobility on congested jobsites
- On-Board Wand Storage: easy access to tools
- Dual tested and certified cylindrical shaped HEPA filters: guaranteed 99.99% efficient at .3 microns. Dust is trapped in the inside of the filter, minimizing risk to operator during filter changing. With filter compartment cap for fast, easy filter changes.
- Bottom Mounted Dual Vacuum Motors: two-motor power for fast pick-up.
- 10" Rear Tires: smooth, easy transport over power cords and other floor obstructions

526 Specifications

Volts:	120	230
CFM:	258	258
HP:	3.4	3.4
Amps:	18	9
Water Lift:	100	100
Weight:	137	137
Product Code:	200900059A	200900059B

Conical Pre-Filter: stays clog free, cleans more thoroughly via jet pulse.

Manometer: measures the negative pressure within the tank and alerts the operator when the filters need servicing.
