

T4000 3P HEPA Dust Extractor

Powerful dust separator suitable for fine dust

T4000 is one of the newest members of Ermator's T-line. The 230V, 3-phase motor provides 280CFM and 125" of water lift. The high water lift secures high suction power to small and mid-size, low voltage concrete grinders, scarifiers, saws and shot blasters.

The T4000 features a large pre-filtration surface, long lasting suction power and low filter cost. Individually tested and certified HEPA filters provide a safe environment for the operator and other job site workers.

Like all Ermator vacuums, T4000 is equipped with drop down disposal, Longopac collection system, JetPulse filter cleaning and a manometer.

Jet Pulse: for efficient filter cleaning

Strong, ergonomic handles: also good for truck loading Large ergonomic handles for easy tilt, transfer and loading, especially up and down steps.

2.5-inch hose inlet: with tight air seal

Two tested and certified HEPA filters: each mounted above a single vacuum motor.

Longopac Dustless: drop-down disposal via Longopac bag system

10-inch Rear Wheels: non marking

Front Swivel Casters: 4-inch, lockable

Manometer: measures the negative pressure within the tank and alerts the operator when the filters need servicing.

Electrical Outlet: 30 amp outlet for grinder plug-in.

Central Exhaust: concentrated air exhaust may be vented away from jobsite with duct hose.

T4000 Specifications

CFM:	280
HP:	5
Amp:	14.8
Volt:	230, 3-phase
Water lift:	125
Weight:	181
Product code:	201000671
With Distribution Box:	201000671C
